Sewer: -

Utilities: -

This 2.1 acre site is a prime location for a multi-family development, with multi-family developments area and a large on stated for 2 years from now. This parcel lends itself well as it is a smaller site that could be developed and units sold before the others start. This is neighborhood is an established one and lends itself well to multifamily units as it s close proximity to transit (LRT & Bus) and shopping centers & ease of access to Stoney and Macleod Trails.
